Play and Practice in English Paul Morgan y  
Sadie Pratt

### Descripción de la actividad:

The groups depend on the ages of the students. We usually divide them as follows:

- Rollers (3–5 years)
- Bikers (6–8 years)
- Skaters (9–11 years)
- Surfers (12+ years)

In the past few years, I've typically had one group of Bikers and one group of Rollers on Fridays.

For the younger groups (Rollers and Bikers), we do very little formal work with writing or reading. These skills are included occasionally within specific activities, but the main focus is learning English through play, crafts, conversations, and games—with a learning target for the day. With Rollers especially, the emphasis is on listening and speaking, as they are just beginning to learn how to read and write.

For the older groups (Skaters and Surfers), reading and writing play a larger role, as these students already have those skills developed. Still, even with these groups, we incorporate literacy into fun and engaging activities rather than relying on a traditional classroom style of instruction."
